EDUCATION

DigitalCrafts

Full time Web Development Program

Remote

8/2022 - 11/2022

- Full Stack Software Development program utilizing all skills listed below
- One of the highest rated coding bootcamps on [Course Report](#)
- Accredited through the American Intercontinental University System
- At DigitalCrafts, I built four separate projects, three in teams and one individually. I learned a lot about working in a team using Agile and what it truly takes to become a Junior Software Developer.

Los Angeles, CA

9/2008 - 5/2010

Los Angeles College of Music

A.A. Degree | Music Performance

- Full time program studying music performance and drums/percussion

PROFESSIONAL EXPERIENCE

Code+/Trust (Internship)

Software Developer

Mt. Pleasant, SC

1/2022 - 5/2022

- Front-end development using HTML, CSS, Javascript, ReactJS, CLI, Git, and Github
- Assisted on multiple intern centered projects including an intern-led project entitled Rudi

Self-Employed Musician and Educator

Musician, Drummer/Percussionist/Educator

Various, USA

5/2010 - Present

- Accompanied bands/songwriters and musicals in both local and regional performances
- Served as a private instructor teaching percussion, piano, and bass guitar
- Lead instructor of the Wednesday Night Jazz Combo at the Charleston Jazz Academy
- Lead Instructor of The Music Battery, a 501c3 non-profit serving underserved communities in Charleston

RECENT PROJECTS

Doggy DJ | Frontend Developer | <https://github.com/fionaeckert/frontendproject>

- *Tech Stack:* HTML, CSS, Bootstrap, and JavaScript, Third-party APIs. Deployed using Heroku
- Worked in a group of 3 and worked in an Agile format
- Responsible for most of the HTML and CSS of the page as well as incorporating Bootstrap in our styling. On top of the styling, I helped manage our two chosen APIs and helped ensure the API endpoints worked in our CRUD format. Lastly, I was responsible for creating a robust README page to ensure clear visibility of our site at a glance.

Supernova-Cantina | Project Lead/Fullstack Developer | <https://github.com/jordanboardman/cantina> |

<https://supernova-cantina.herokuapp.com/>

- *Tech Stack:* Node.js, PostgreSQL, SQL, Sequelize, Express.js, EJS, JavaScript, HTML, CSS, Deployed using Heroku
- Worked in a group of 3 and worked in an Agile format
- Primary role was split between leading the project management, developing frontend styling using EJS and CSS, deployment of the site, and help with managing our databases using PostgreSQL and Sequelize commands
- Organized the team utilizing JIRA for Agile workflow, Github, and the CLI
- Responsible for creating a robust README page to ensure clear visibility of our site at a glance

SKILLS & PROFICIENCIES

- HTML, CSS, Bootstrap, JavaScript, React.js, Python, PostgreSQL, Sequelize, Express.js, Node.js, EJS, Git, Chrome Developer Tools, CLI, RESTful APIs, CRUD, JSON, Postman, Agile Workflow, JIRA, Trello, Github, Deployment using Heroku and AWS
